### Release of Liability form-update

This letter should serve as an update from **E-Z-On Products, Inc. of Florida** regarding the previous requirement of a Release of Liability form for the manufacture of custom vests.

It will no longer be necessary to have a Release of Liability form in order to obtain, or use one of our custom E-Z-On vests. The company has opted out of this form is due to the fact that modifying a stock size (XXS, S, M, L) of one of our vests does not change the design, and in turn does not change the function or safety of our vests.

We truly appreciate your interest in the quality products made by **E-Z-On Products, Inc. of Florida** and hope that we have made you loyal customers for life.
